

Equipment Check Items

Recommended workspace items

- Stable work table, recommended to have two stable work tables.
 - One for chronograph, one for box and scale.
- Chair(s) for equipment check staff.
- Awning if not equipment check area not otherwise covered.
- Radio to contact MD as needed.

Required test items

NOTE: It is strongly recommended to have at least two of the same for test boxes, chronograph and scales.

- Official IDPA test box(es) (2020 metal box set preferred).
 - If using other than the 2020 metal box set, there is a maximum tolerance of -0" to + 1/16" from published specifications for the division.
- Scale providing output in dry ounces and/or grams.
- Calibration / check weight of 32 dry ounces (2 pounds) or 1000 grams (1 kilogram).
- Steel ruler, machine shop rulers are best.
- 3/4" dowel rod, 12-18 inches in length.
- Chronograph (for Tier 3 and above matches).
 - LabRadar is recommended for simplicity and repeatability.
 - Multiple fully charged battery packs for power source.
 - View videos in the CE section of your IDPA dashboard for proper usage instructions.
 - Optical chronograph requires constant / consistent overhead lighting conditions, keep under awning.
 - Extra rods / sunscreens.
 - Extra batteries.
